BLM, Inc. Approved Performance
Test Equipment - Marquette Corporation

MODELS:

All Models

As you may know we have a National Program with the Marquette Corporation of Minneapolis, Minnesota. Your Distributor can offer you the complete range of Marquette equipment at a considerable saving.

This type of equipment is absolutely essential for the correct tuning of all BLM, Inc. vehicles equipped with Exhaust Emission Control Devices as required by Federal Law (Public Law 88-206 "Clean Air Act").

With this equipment, not only will you meet our service requirements, but your service profits, your customer satisfaction and confidence will increase tremendously.

Attached is an illustrated sheet of the approved Marquette equipment. To place your order for this equipment, or for further information, contact your Distributor.
