

TO: All Dealers

BULLETIN #T-62-8

DEPT: Service and Parts

DATE: March 26, 1962

SUBJECT: SPECIAL TOOLS

Attached hereto is the latest list of suggested Special Tools.

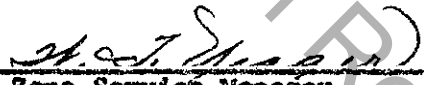

To minimize expense, a careful survey has been made to reduce this list to the bare essentials and it will provide a ready check and order list to assist in making up your requirements. In the near future, you will be asked to purchase at least the minimum dealer requirement, List "A", and our field men will hold periodic inventories to determine dealer levels on these items. We are hoping for 100% participation and cooperation in this program.

We would like to point out that one job, properly performed, can more than pay for these tools in time saved. Conversely, one batched up job, improperly performed, for lack of proper tools, can cost more than the price involved. We ask you to please discuss this point with your mechanics and Service Manager.
